ABOUT US

With over 10 years experience supplying wall art and mirrors, T A Interiors has become a leading manufacturer in the interior design industry, supplying hotels, care homes, bars and restaurants.

Starting out as a framed artwork supplier restoring and republishing antique maps and illustrations we now operate from a 12,000 square foot production facility in Burnley, Lancashire.

Utilising our in house production, we can ensure the highest standards of quality are met at every stage by overseeing the entire process; from design, machining, spray finishing and assembly.

At T A Interiors we are dedicated to sustainability and environmental responsibility. We take pride in sourcing our timber products exclusively from FSC accredited forests, ensuring that our practices support sustainable forestry.

Our commitment extends to our packaging, which is made from recycled and recyclable materials, minimising waste and reducing our carbon footprint. All of our materials are sourced in the UK, which is why we are proud to hold a Made in Britain accreditation.

MEET THE TEAM

Our dedicated team is united by a shared commitment to Innovation, Quality, Customer Care and Sustainability.

THE T A INTERIORS TEAM

T A INTERIORS - BESPOKE

At T A Interiors, our mission is to provide a comprehensive one-stop solution that brings designers' artistic visions to life.

From concept to completion, we offer a wide range of in-house services, including custom framing, bespoke mirror production, decorative panelling, and tailored finishes. We provide everything you need to turn creative ideas into high-quality, tangible products.

WALL ART & PICTURE FRAMING

We offer expert printing and framing services for any artwork, material, or object with a wide range of frame styles, shapes, colours and finishes to choose from.

MIRRORS

We specialise in crafting bespoke framed mirrors, fully customisable to meet your exact specifications in shape, size, colour, and finish.

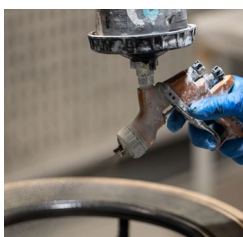

DECORATIVE PANELLING

We produce decorative wall panelling, that adds a unique touch and texture to any interior space.

CNC SERVICES

Our in-house CNC workshop allows us to create intricate, custom designs with precision and flexibility. This advanced technology enables us to bring even the most complex ideas to life.

SPRAY FINISHING

We offer a full spraying service capable of matching any colour or finish you specify.

WALL ART & PICTURE FRAMING

MOULDING OPTIONS

Wood Cross Section

Polcore Cross Section

SOLID WOOD

Made from natural wood, offering durability, a premium look, and unique wood grain patterns. Ideal for high-end or traditional framing projects.

POLCORE

Made from recycled polystyrene, this is lightweight, budget-friendly and available in a variety of finishes. It is a practical choice for contemporary or cost-effective framing needs.

PRINTING OPTIONS

GICLÉE

A high-quality inkjet printing process on archival paper, offering exceptional colour accuracy and longevity, ideal for fine art reproductions.

CANVAS

A textured material used for printing that mimics traditional painting surfaces. It provides a more artistic, hand painted look and can be stretched over a frame.

PHOTO PAPER

A smooth, glossy or matt paper designed for photographic prints, offering sharp details and vibrant colours but without the texture or depth of canvas or giclée prints.

MOUNTING

CONSERVATION

Acid-free and lignin-free, designed to protect artwork from fading or damage. It's ideal for long-term framing of valuable or delicate pieces.

STANDARD

A cost effective mounting option made from wood pulp. Suitable for contract framing or non-valuable pieces.

SINGLE/DOUBLE

Single mounting uses one layer of mountboard to frame the artwork, offering a clean and simple border that highlights the piece. Double Mounting involves two layers of mountboard, often with contrasting colours or subtle spacing between them, creating extra depth and a more sophisticated, dimensional look.

GLAZING

FLOAT GLASS

Standard glass with a smooth surface, typically used for general and contract framing.

ACRYLIC

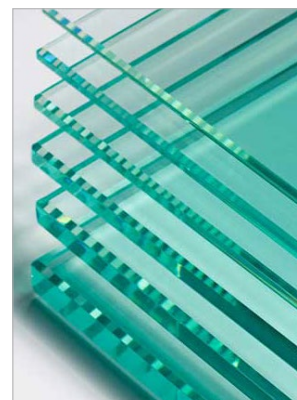

A lightweight, shatter-resistant alternative to glass. It is less prone to breakage and ideal for larger frames or areas requiring safety.

ART GLASS

Designed for displaying high end or original artwork, this glass has minimal tint, UV proofing and offers high clarity, enhancing colour accuracy and detail in the artwork.

ANTI-REFLECTIVE GLASS

Specially coated to reduce glare and reflections, allowing for a clearer view of the artwork, particularly in well-lit environments.

ROUND, OVAL & BESPOKE

Using our in-house CNC workshop, we can produce round, oval and bespoke shapes in a variety of profile and finish options. Our CNC'd frames are produced from a high density, moisture resistant fibre board and machined with diamond tipped tooling for a flawless finish.

Below are a selection of our existing options:

BOX

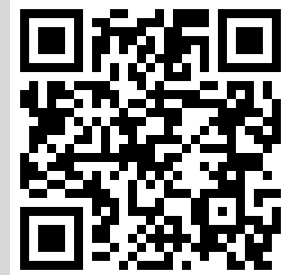

CUSHION

RIBBED

OXFORD

LARSON · JUHL®

Hundreds of mouldings available for framing. Scan the QR Code and have a browse.

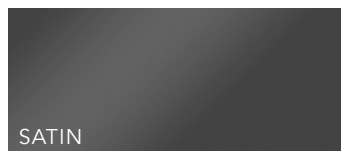

FINISH & COLOUR MATCHING

We can match any RAL, Farrow & Ball, Zoffany or Little Greene colours.

All of our paints and lacquers are polyurethane based. Suitable for commercial use, this finish is hard wearing and scratch resistant.

Sheen level can be specified:

LIQUID METAL FINISHES

COPPER

WHAT GOES INTO A T A INTERIORS FRAME?

OXFORD SQUARE 70CM FRAME

1) Solid Wood Frame

Sustainably sourced and made using precision mitre cutting and underpinning machinery.

2) Daler Rowney Mountboard

The No.1 name in mountboard. Precision cut and acid-free.

OXFORD ROUND 70CM FRAME

3) 2mm Float Glass or Acrylic

Provides crystal clear protection for our artwork.

4) Fine Art Print

Printed in-house using the finest quality inks and archival-grade paper.

HANGING SYSTEMS

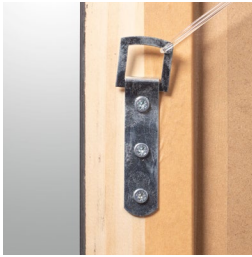

SPRING LOCK SECURITY FIXINGS

Locking mechanisms that secure the frame to the wall, preventing theft or accidental removal. Often used in public or commercial spaces for added security.

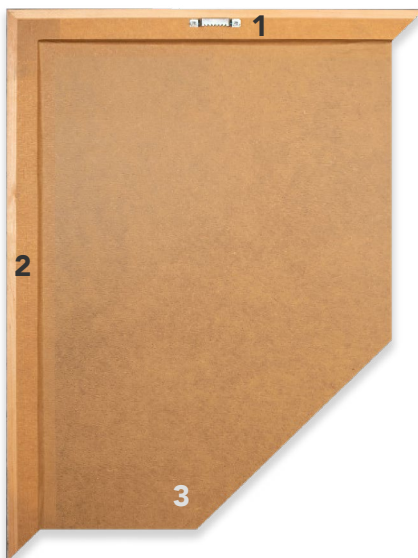

SAW TOOTH HANGERS

Simple metal hangers with serrated edges, attached to the back of the frame for easy hanging on almost any nail or screw.

D-RINGS & CORD

Two metal D-rings attached to the frame's sides with a cord or wire strung between them, allowing for flexible positioning and added support for heavier frames.

1) Easy Hanging

A saw-tooth hanger allows you to hang our art with ease.

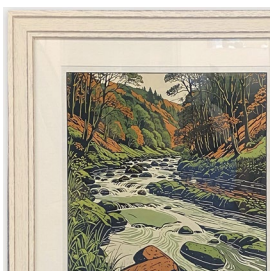

2) Finished to Perfection

Each and every frame is neatly sealed with finishing tape.

3) MDF Backboard

A solid backing for each piece of art.

BESPOKE FRAMING

Our skilled team can frame almost any artwork, material or object you provide.

BESPOKE MIRROR SHAPES

We can manufacture custom made mirrors tailored to your desired shape, size colour and finish.

Below are some examples of mirror frames we've recently manufactured. Share your specifications, drawings, or ideas with us, and we'll be delighted to discuss them with you further.

OUR PROCESS

Offering a truly personalised service, our team will work closely with you to understand your unique designs and ideas. From initial concepts to final installation, we ensure that every detail aligns with your vision.

SAMPLE SELECTION

To help you make confident choices, we can provide samples of frame mouldings, shaped profiles and spray finishes. These samples give you the chance to preview materials and colours, prior to a consultation.

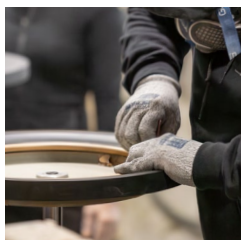

CONSULTATION

During this stage, our team will work closely with you to understand your design ideas, address any questions, and assist with any challenges you're facing. This consultation will also allow us to provide a detailed quote.

ART CURATION

Based on your vision, we curate a selection of artwork, materials and framing options tailored to complement your design. From bespoke wall art to unique finishes, we provide options that align with your design brief.

DESIGN & PRODUCTION

Our production team will bring your vision to life using our advanced CNC and woodworking machinery. We will ensure precision and quality in every detail creating exceptional quality products with short lead times.

INSTALLATION

The final step in our turnkey operation is our professional installation service. Our CSCS registered fitters are available to expertly install your products.

CASE STUDIES

Here are some of our previous projects. At T A Interiors, we specialise in creating bespoke mirrors, artwork, wall panelling, CNC and laser-cut features, custom framing, and tailored interior pieces for commercial and residential spaces.

Every project is designed and manufactured with a focus on craftsmanship, quality and attention to detail. Scan the QR code to see how we bring each concept to life.

SPOONBILL

SPOONBILL WITH MOUNT

BLUE HERON

LOUISIANA HERON

Here are our digitally restored and reworked versions of the famous watercolour paintings by John James Audubon.

Audubon is credited with creating the largest and most beautifully illustrated bird book in history with over 400 life-size paintings of the 'Birds of America' which was his life-long passion and took 12 years to complete.

Audubon's original watercolour images were traced in reverse onto sheets of copper, and the lines etched into the metal using acid. The images were then printed in black ink and watercolour was applied by hand to the finished prints by a team of colourists.

Many of our works, although inspired by Audubon's originals are entirely unique to us, having been extensively repainted to match his style whilst being redesigned to fit our bespoke round frames.

C.1904 ERNST HAECKEL

KUNSTFORMEN DER NATUR

A SELECTION OF ERNST HAECKEL'S INFAMOUS
ZOOLOGICAL STUDIES.

HAECKEL'S HUMMINGBIRDS

The following two pages contain our digitally restored and reworked versions of the famous illustrations by Ernst Haeckel.

Ernst Haeckel, a German biologist and naturalist not only discovered, described and named thousands of new species, but captured their forms with his incredible botanical illustrations. Made during the late 19th and early 20th centuries, his brilliantly colourful and highly stylised drawings, watercolours, and sketches reveal how different forms of plant life appear under the microscope. Although each hand-drawn organism looks like something from a science fiction book, Haeckel's body of work sheds light on the incredible hidden intricacies of real, natural forms that inhabit the Earth.

C.1852 VIEW OF NATURE IN ALL CLIMATES

This spectacular frame shows the equinoctial angles of the sun's rays and the effects of light and heat on animal and vegetable life in all regions from the Equator to the Arctic Circle. It illustrates the astronomical and physical phenomena of the various regions of the globe and the distribution of organic life in a horizontal direction.

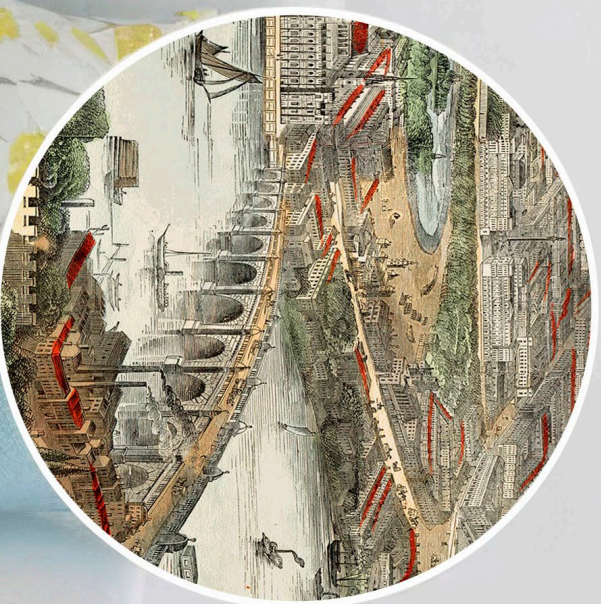

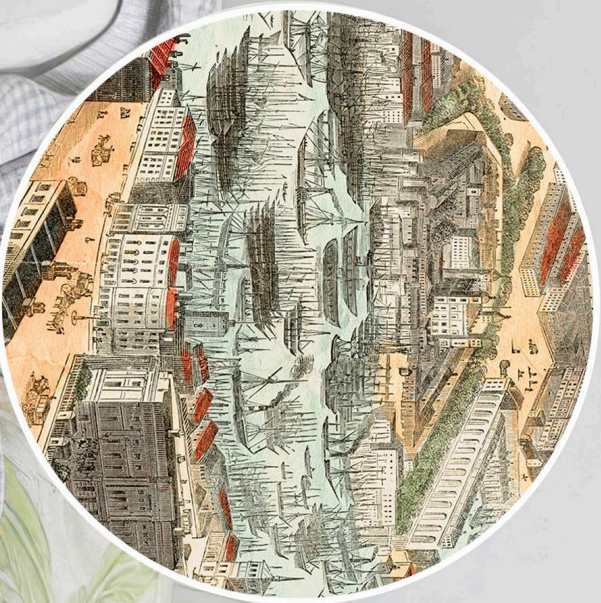

C. 1845 PANORAMIC VIEW OF LONDON AND THE RIVER THAMES

Birds-eye view from Vauxhall Bridge to Greenwich.

A panorama from the south of the river, looking towards the north bank showing the pedestrian's viewpoint at street level. The panorama traces the route of the Thames focusing on important buildings and the bridges spanning it.

C.1834 PANORAMIC MAP OF THE RIVER THAMES

Initially a folded panoramic pictorial map of the Thames River found in the back of an 1840's atlas, this chromolithographed, steel engraved print was folded in 12 places and underwent an extensive digital restoration to remove fold marks and restore its original colour. This map shows the Thames from its source in Gloucestershire, extending to the estuary in the north sea. Shown in detail are major towns, railways, bridges and roads. It also includes distances and a list of important landmarks.

C.1852 CHARTS

C.1852 PRINCIPAL EMINENCES OF THE BRITISH ISLES

Originally a hand coloured view illustrating Ben Nevis, Snowdon and Scafell Pike. The highest mountains in Scotland, Wales and England respectively.

It also illustrates the heights of other significant locations in the British Isles.

C.1852 PANORAMIC PLAN OF THE PRINCIPAL RIVERS AND LAKES

Originally a hand coloured view of the worlds largest rivers and lakes.

The rivers are placed side by side to demonstrate their comparative lengths and are surrounded by the great lakes of the world.
